CONTENTS.

PART I.—(*Report*).

	Page.
Introductory and explanatory paragraphs	1
Admission and disposal of prisoners	1 to 4
Religion, age, education of convicts and previous occupation	4 & 5
Numbers according to nature and length of sentence	5
Previous convictions	5 & 6
Escapes and recaptures	6 & 7
Jail offences and punishments	7 & 8
Imposition of Fetters	8
Remission system	8
Convict Officers	9
Diet	9
Under-trial prisoners in Prisons, Subordinate Jails and Lock-ups.	9
Civil prisoners	9
Total expenditure incurred in jails	9 to 13
Employment of convicts	13 & 14
Manufactures and earnings of prisoners	14 to 16
Net cost	16
Health of prisoners	16 to 20
Official and non-official Visitors	20 & 21
Buildings	21 & 22
Inspections and general remarks	22 & 23

PART II.—(*Statements*).

General Summary showing the distribution of prisoners of all classes	25 to 27

Judicial.

Statement No. I.—Admission and disposal of convicts	28 & 29
Do. „ II.—Religion, age, education and previous occupation of convicts...	30 & 31
Do. „ III.—Sentences of convicts	32 to 35
Do. „ IV.—Previous convictions	36
Do. „ V.—Escapes and recaptures	37
Do. „ VI.—Jail offences and punishments	38 & 39
Do. „ VII.—Particulars regarding convicts employed as Convict officers ...	40
Do. „ VIII.—Diet scales for Natives, Europeans, &c., &e.	41

Financial.

Statements Nos. IX & X.—Expenditure incurred in guarding and maintenance of prisoners	42 & 43
Statement No. XI.—Employment of convicts	44
Do. „ XII.—Results of the employment of convicts	45
Do. „ XIII.—Gross and net cost of prisoners	46

Vital.

Statement No. XIV.—Sickness and mortality amongst all classes of prisoners ...	48 to 53
Do. „ XV.—Admission and deaths from the chief diseases amongst convicts	51

PAGE.

Statement No. XVI.—Mortality according to length of *original* sentences amongst convicts 55

Do. „ XVII.—Mortality according to length of time passed in Prisons ... 56

MINOR CLASSES OF STATEMENTS.

Statement No. XVIII.—Particulars regarding under-trial prisoners 57

Appendix A.—Showing the nature and amount of accommodation for each class of prisoners ... ... 58 to 62

„ B.—Showing condition of convicts discharged 63

„ C.—Showing working of the Mark system 64

„ D.—Showing the nature of the crimes for which convicts were imprisoned ... ... 66 to 73

„ E.—Superintendents and Jailors 74

No. 1756 of 1895.

From

The INSPECTOR-GENERAL of PRISONS,
Bombay Presidency;

To

The SECRETARY to GOVERNMENT,
Judicial Department,
Bombay.

Inspector-General of Prisons' Office,
Bombay, 9th April 1895.

Sir,

I have the honour to submit the Annual Report, together with the usual statistical tables, on the Prisons and Jails in the Bombay Presidency for the year 1894.

2. Before proceeding to deal with the statistics I would desire to explain that since the 1st July last—the date of the introduction of the Prisons Act, IX of 1894,—the designation of a number of the institutions with which this report deals has undergone a change. Those places of confinement, heretofore known as Central Jails and District Jails, are now respectively called Central Prisons and Prisons, the term "Jail" being applied only to those places formerly known as Subordinate Jails.

JUDICIAL.

3. The number of Prisons (District Jails) has, during the past year, been reduced by one, while the number of Central Prisons (Central Jails) has, during the same period, been raised from one to two. This change has been brought about by the abolition of the District Jail at Hyderabad and the transfer of its prisoners on the 1st December last to the Second Class Central* Prison recently completed at that station.—(Government Resolution, Judicial Department, No. 7364, dated 5th November 1894.) The Ahmedabad Central Prison was established on and from the 1st of January last and is not therefore included in the purview of the present report. The Nara Convict Gang has, under the orders contained in Government Resolution, Judicial Department, No. 4250, dated 19th June 1894, been re-named the Sind Gang.

General Summary.

4. The summary which is to be found appended to this report deals with the prisoners confined in Central Prisons, Prisons, Criminal and Civil Jails and Lock-ups. The statistics in connection with Subordinate Criminal and Civil Jails are here inserted for the first time instead of being furnished in Appendices attached to the tabular statements, as the summary under reference appears to be the most appropriate place in which such figures should be inserted. The Civil Jails are, like our Prisons and principal Subordinate Jails, situate at District head-quarters, and in the summary under reference are, as regards their statistics, bracketted in each case with the local Prison or Subordinate Jail, though, with the exception of the Civil Jails of Bombay and Karáchi, they do not, in a structural sense, form part of the Prison or Subordinate Jail but consist of entirely separate and distinct buildings sometimes in the neighbourhood of, and as often at a considerable distance from, the Prison or Subordinate Jail. Civil Jails, as Government are aware, are not under the direct control of this Department, though the accounts in connection with such institutions are audited by this office. The figures contained in column 5 of the "General Summary" include not only direct admissions but also prisoners received by transfer, and must not, therefore, be taken to

* The Hyderabad Prison having been a District Prison for eleven months of the year under review, and a Central Prison for only one month of that period, has, in the Appendix statements of the present report, been shown as a Prison of the former class.

represent the actual number of offenders imprisoned during the year as, in the case of transfers, the same prisoners figure in the statement twice or perhaps even three times. The total Jail population, subject to the foregoing explanation, during the year under review, has been 75,437 as compared with 79,393 in 1893, while the daily average strength shows a decrease of 112 on the figures of the previous year.

Statement No. 1.—Number and disposal of convicts.

5. The subjoined table refers to direct admissions of convicts only, and compares the figures of the past two years :—

	1893			1894		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year. { Prisons ...	6,731	232	6,963	6,886	207	7,093
{ Jails ...	230	14	244	221	13	234
Imprisoned during the year. { Prisons	11,783	534	12,317	11,468	499	11,967
{ Jails ...	3,014	190	3,204	2,882	162	3,044
Total ... { Prisons	18,514	766	19,280	18,354	706	19,060
{ Jails ...	3,244	204	3,448	3,103	175	3,278
Grand Total	21,758	970	22,728	21,457	881	22,338
Daily average number	6,967	231	7,198	7,021	206	7,227

6. The total number of convicts admitted into Prisons and Subordinate Jails during the year has been 15,011. In 1893 the number was 15,521. The daily average number for 1894 has been 7,227, while in 1893 it was 7,198. A comparison with the year 1893 shows that during the year under report the number admitted has been less, while the daily average strength has been higher. The question of daily average strength of *convicted* prisoners is more largely governed by that of length of sentence than by the mere number of admissions, an explanation which throws light on the seeming paradox stated in the foregoing passage.

7. The table below deals with direct admissions into Prisons :—

		1893.	1894.	Increase.	Decrease.	Total Increase or decrease in each Province.
Bombay ...	Common Prison	2,232	2,528	296	...	+27
	House of Correction	678	409	...	269	
Deccan ...	Yerrowda	724	648	...	76	+71
	Násik	474	565	91	...	
	Dhulia	611	667	56	...	
Southern Country.	Marátha — Bijápur	374	269	...	105	−166
	Deccan Gang	1	...	...	1	
	Dhârwár	335	275	...	60	
Konkan ...	Karwár	190	228	38	...	+52
	Ratnágiri	184	200	16	...	
	Thána	1,307	1,305	...	2

	Hyderabad	1,023	1,053	30	...	
	Shikárpur	1,181	1,042	...	139	
	Sind Gang	...	...	...	...	
Aden ...	Aden	230	208	...	22	−22
	Total	12,317	11,967	569	919	
	Decrease			350		

8. The number of admissions into the Common Prison is 296 in excess of the figures for 1893, a year during which the admissions, owing to the local disturbances, were abnormal. This increase I find it difficult to satisfactorily

account for, especially in view of the fact that in the House of Correction there has been a decline of 269 in the number of admissions. The era of quiet, which has reigned in Bombay since the riots of August 1893, is doubtless responsible for the latter decline, though, subject to the explanation that the bulk of the prisoners who undergo their sentences in the Common Prison are petty criminals, offenders of a more pronounced type being sent to the House of Correction, it seems strange that the re-action after the disturbances of August 1893 has not in the Common Prison, as well as in the House of Correction, been productive of a decline. In the former Prison the admissions of prisoners sentenced to one month and less supply more than two-thirds of the increase named at the commencement of this paragraph. The fall in the number admitted into the Bijápur Prison is partly ascribed to favourable prices for food-grains. No reasons can be assigned for the variations in the figures of the other Prisons except in the case of that at Aden, the decrease in which is set down to the fact that a smaller number of reconvicted prisoners has been admitted, this possibly being the result of the deportations referred to at the conclusion of paragraph 5 of the report for 1893. It may not be out of place to here record the fact that the admissions into the Ahmedabad Prison have decreased year by year since 1889.

Female prisoners

9. The number of female prisoners imprisoned during 1894 has been 661 or 63 less than during the previous year. The Common Prison and the Prisons of Násik, Dhulia, and Kárwár respectively show an increase of 18, 10, 6 and 15 over the figures for 1893, while the Prisons of Yerrowda, Dhárwár and Shikárpur show a decrease of 50, 20, and 20 respectively :—

	1890.	1891.	1892.	1893.	1894.
Females	786	771	839	724	661
Decrease on previous year per cent. ...	10·9	1·9	...	13·7	8·7

10. The subjoined statement furnishes particulars regarding the disposal of convicts in Prisons and Jails during the years 1893 and 1894 :—

	1893.			1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
Transferred to other Prisons—						
To undergo sentence	3,967	78	4,045	3,126	95	3,221
For transportation beyond seas, &c.	96	10	106	127	7	134
Released on appeal	748	28	776	876	28	904
Do. on expiry of sentence ...	12,418	678	13,096	11,604	591	12,195
Do. under Remission Rules ...	1,104	35	1,139	1,599	52	1,651
Do. by order of Government on account of sickness ...	3	...	3	1	1	2
Do. on other grounds	7	...	7	24	...	24
Transported beyond seas ...	91	7	98	106	6	112
Tranferred to lunatic asylums ...	1	...	1	8	...	8
Escaped	12	...	12	15	...	15
Executed	34	...	34	31	...	31
Died						
Number remaining on 31st December...	182	4	186	238	2	240
	7,091	219	7,310	6,832	196	7,028
Total ...	25,754	1,059	26,813	24,587	978	25,565

11. The number of transfers has fallen, as the Deccan Gang, owing to a lack of suitable work, has not been maintained at anything approaching its usual strength. There was also no need for any large transfers from the Bombay Pri-

sons as, owing to the local disturbances, there was in the preceding year. The number released on appeal has increased by 128 and the number released under the Remission Rules by 512. The latter, as explained last year, is to be expected, now that prisoners with a sentence of one year are admitted to the benefits of the Mark system. With an increase under the two heads last referred to a decrease naturally appears in the number released on expiry of sentence. *One male convict was released from the House of Correction and one† female convict from the Bijápur Prison on medical grounds. ‡Twenty-four prisoners were released on other grounds, two from the House of Correction, one from the Dhárwár Prison, twenty from the Yerrowda Central Prison, and one from the Shikárpur Prison. The grounds for the release of these convicts have been fully set forth in the Resolutions quoted in the margine. 112 prisoners were transported during the year. Eight were transferred from Prisons to Lunatic Asylums, one from the House of Correction, two from Thána, two from Ahmedabad, one from Hyderabad, one from Shikárpur, and one from Aden. The lunatic removed from Aden to Colába was a European. Fifteen of those prisoners who escaped during the ten years preceding that with which this report deals were at large at the end of the year. The number of executions carried out has been 31 against 34 in 1893. Five of the capital sentences have been carried out in Subordinate Jails. No female suffered the extreme penalty of the law. The number of deaths show an increase of 54 over the figures of the previous year. 233 deaths occurred in Prisons and 7 in Subordinate Jails. The total number of convicts remaining at the close of the year under report was 6,832 males and 196 females, of whom 217 males and 19 females were in confinement in Subordinate Jails. On the last day of 1894 there were 127 Burman prisoners and one §State prisoner in confinement, the latter being confined in the Yerrowda Central Prison.

§Government Resolution, Political Department, No. 4727, dated 22nd July 1892.

12. The figures in connection with the classification, according to religion, of convicts admitted into Prison exhibit no marked difference in percentage from those of the previous year, save under the head "All other classes," the percentage of which has doubled. Under this head the number 59 is made up of 36 Pársis and 23 Jews.

Statement No. II.—Religion, age, education of convicts and previous occupation.

13. The number of juveniles admitted during the year under review has been 72 males and 20 females. This number is less by 13 than that recorded in the year 1893, and less by 19 than that shown in 1892. Of the 92 juveniles admitted, 7 had been previously convicted, 55 juveniles were sentenced to terms of imprisonment for one month and under, 20 were under sentences from above one to six months, and 17 were under sentences of above six months.

14. The statistics appearing in column 5 A of Statement No. II, regarding the education of convicts on admissions, afford a striking contrast with those of the year preceding that under report, and in a greater degree with those for 1892. In 1892, of the 16,209 convicts imprisoned, 954 were "able to read and write;" in 1893, of 15,521 convicts imprisoned, 1,043 were "able to read and write," and in 1894, of 15,011 convicts imprisoned, 1,653 were "able to read and write." These figures show that of the convicts admitted in 1893 only 6·7 per cent. were "able to read and write," whereas the percentage in the year under report has been 11.

15. There is little variation in the percentages of the figures showing the various occupations of convicts previous to imprisonment. A reference to the table which follows will show that a larger number than usual of those "Engaged in commerce and trade" and "In service or performing personal offices" have been admitted into Prison during the year:—

	1893.				1894.			
	Census (1891).	Number admitted during the year.	Percentage of number admitted to free Population.	Percentage to Total Prisoners admitted.	Census (1891).	Number admitted during the year.	Percentage of number admitted to free Population.	Percentage to Total Prisoners admitted.
Employed under Government or Municipal or other local authorities	378,041	508	0·134	3·4	378,041	475	0·126	33
Professional persons	219,603	242	0·110	1·6	919,603	152	0·069	1·1
In service or performing personal offices	264,859	2,051	0·774	13·9	264,859	2,220	0·838	15·5

Engaged in commerce or trade ...	456,657	1,051	0·230	7·1	466,657	1,357	0·297	9·5
Mechanical arts, manufactures, and engineering operations ...	2,078,026	1,756	0·085	11·9	2,078,026	1,491	0·072	10·4
Miscellaneous	644,026	2,045	0·318	13·8	644,026	2,021	0·314	14·0
Total ...	9,793,981	14,797	0·151	100·	9,793,981	14,350	0·147	100·

16. The annexed table deals with the length of sentences of the convicts admitted during the past two years. None of the fluctuations which the table exhibits are sufficiently pronounced to call for remark.

Statement No. III.—Nature and length of sentence.

	Not exceeding 1 month.	Above 1 and not exceeding 3 months.	Above 3 months and not exceeding 6 months.	Above 6 months and not exceeding 1 year.	Above 1 year and not exceeding 2 years.	Above 2 years and not exceeding 5 years.	Above 5 years and not exceeding 10 years.	Exceeding 10 years.	Sentenced to Transportation. For life.	Sentenced to Transportation. For a term.	Sentenced to death.	Total.
1893 ...	6,057	3,210	2,869	1,521	889	578	155	6	145	36	55	15,521
1894 ...	5,883	3,081	2,726	1,644	822	464	150	5	163	14	59	15,011
Ratio per cent. to number admitted direct into prison. 1893 ...	39·0	20·7	18·5	9·8	5·7	3·7	1·0	0·1	0·9	0·2	0·4	100·
Ratio per cent. to number admitted direct into prison. 1894 ...	39·2	20·5	18·2	10·9	5·5	3·1	0·9	...	1·1	0·1	0·5	100·

17. Regarding the nature of the imprisonment awarded, the figures in the table which follows call for no special comment:—

	1893.	1894.
Sentence of simple imprisonment	920	856
Do. rigorous imprisonment	14,479	14,040
Do. do. with solitary confinement ...	49	42
Do. do. with whipping	73	73
Total ...	15,521	15,011

18. I now turn to deal with previously convicted prisoners admitted into Prisons, the statistics regarding whom should—it is reasonable to expect, as the recently introduced Bertillon system of anthropometry is developed—become year by year more complete and reliable. The * Bertillon method of measuring prisoners is being carried out by the Police Department, the officials of which receive every assistance in connection therewith from this Department. It is too early yet to expect the measure to have any influence on the figures contained in the statement marginally noted, and as the whole thing is

Statement No. IV.—Re-convictions.

*Government Resolution, Judicial Department No. 4964, dated 17th July 1894.

still in its infancy, I am not in a position to furnish in this report the information referred to in Government Resolution, Judicial Department, No. 3451 of 19th May 1894. The figures at the foot of the subjoined table contrast the results of the past three years and show from column 7 either that the number of reconvicted prisoners admitted has a tendency to steadily increase or that the successful identification of old Prison hands has developed during the period indicated :—

1	2	3	4	5	6	7	8
Number.	Jails.	Number of Convicts admitted during the year.	Number of Convicts in Column 3 identified as habitual offenders before conviction, and whose convictions did not so appear in the records of proceedings at the trial.	Number of Convicts in Column 3 not so identified and whose previous convictions did not so appear, but who were after arrival in Jail identified by Jail officials as having been previously convicted.	Number of Prisoners who confessed themselves to be habituals.	Total of Columns 4 to 6.	Of the Prisoners shown in Column 7 the number classed by Courts as habituals.

	Total, 1892 ...	12,908	1,662	563	33	2,258	1,181

19. There have been twenty-four escapes during the year and fourteen recaptures. Of the 24 convicts who contrived to get away two escaped from inside Prisons—one from Bijápur and one from Ahmedabad, and the remainder from extramural parties.

Statement No. V.—Escapes and recaptures.

Bijápur Prison.—The one case of escape is that which occurred at the time of the outbreak in that Prison on the 19th November last, a detailed report regarding which has already been submitted to Government. The prisoner was recaptured the following day.

Ahmedabad Prison.—The prisoner who escaped from this Prison was confined in a workshed with other prisoners for the night, the workshed having been used to relieve overcrowding. As the exact time that the convict got away could not be ascertained, a prosecution was not resorted to, but the warder whose duty it was to patrol the spot, between reliefs, where the prisoner scaled the wall, was dismissed.

20. Of the twenty-two prisoners who escaped from outside the walls, twenty belonged to Prisons and two to Subordinate Jails. The escapes from outside Prisons occurred as follows; from Násik 1, from Dhulia 4, from Bijápur 1, from Kárwár 1, from Karáchi 1, from Hyderabad 5, from Shikárpur 3, from the Sind Gang 3, and from Aden 1. In cases where culpable negligence on the part of the guards appeared capable of proof, criminal proceedings were instituted against the latter, while in other and less serious cases departmental punishments were awarded to those in fault. In one case of escape at Hyderabad a warder and a prisoner made themselves scarce together.

Statement No. VI.—Offences and punishments.

21. The statement marginally noted deals with the offences committed by convicts. The offences dealt with by Criminal Courts have been 29. Amongst this number are not included those which were the outcome of the outbreak in the Bijápur Prison, as these cases have only recently been disposed of and will appear in the report for the current year. Among the 29 offences above referred to there were seven cases of assault, in one of which a warder of the Karáchi Prison lost his life. His assailant was tried and sentenced to transportation for life. One offence was an attempt to tamper with the Deccan Gang registers, for which the culprit was sentenced to ten years' transportation. The remaining 21 offences dealt with by Criminal Courts consisted of either escapes or attempts to escape. A reference to the subjoined table will show that there has been a falling off in the number of offences relating to work, while there has been an increase in the number under the head of assaults, mutiny, and escapes, for which in the matter of assaults, the prisoners at Yerrowda, Thána, and Shikárpur are chiefly responsible. The three Prisons named are those in which there are at all times a large number of turbulent characters confined :—

	1893.	1894.
Offences dealt with by Criminal Courts ...	23	29
Offences dealt with by Superintendents.		
Relating to work	2,475	1,990
Do. prohibited articles	684	709
Do. assaults, mutiny and escapes ...	68	167
All other breaches of Prison Rules	1,225	1,319
Total ...	4,475	4,214

22. The subjoined table contrasts the punishments inflicted during the past two years :—

		1893.	1894.
Punishments inflicted by Criminal Courts ...		23	29
By Superintendent.			
Minor.	Warnings	445	583
	Penal diet	774	457
	Separate cellular and solitary confinement ...	92	229
	Hand-cuffing and link fetters	5	86
	Other punishments	2,213	1,588
	Total ...	3,529	2,943
Major.	Separate cellular and solitary confinement ...	10	52
	Penal diet with solitary confinement ...	419	776
	Fetters	46	46
	Corporal punishments	123	136
	Other punishments	325	232
	Total ...	923	1,242
	Grand Total ...	4,475	4,214

23. There has been an increased tendency to resort to the punishment of "Penal diet with solitary confinement," especially in the Yerrowda Central Prison. The number of corporal punishments has increased, that in Hyderabad alone having gone up from 6 in 1893 to 16 in the past year. The increase in the total number of punishments in the last named Prison is very marked, and is due to the substitution of a full-time Superintendent, for the heavily worked Civil Surgeon of the station and *ex-officio* Superintendent, having led to a much needed tightening up, towards the end of the year under report, of the bonds of discipline in what is now the Hyderabad Central Prison. The number of major punishments has increased as compared with the previous year, but, as the number of warnings has also risen, there is no reason to characterise the punishments as a whole, as unduly severe. The increase under the first, second, and fourth heads of the punishments classified as "Major" is unquestionably very largely due to the disappearance of the stocks as a means of punishment. The following table gives particulars as to the number of stripes inflicted. The maximum number of stripes which could be inflicted under Bombay Act of 1874 was 25, the maximum number under the Indian Prisons Act of 1 being 30. The above accounts for the blank against the year 1893 appe in sub-column 5 of column 3 of the table:—

		1	2	3						4	5	6	
		Total Number of male Prisoners for the year.	Total Number of Jail offences.	Total Number of Prisoners punished by whipping.						Percentage of Column 3 to Column 1.	Percentage of Column 3 to Column 2.	Number of Prisoners in whose case (*a*) death or (*b*) illness was directly or indirectly the effect of Corporal Punishment.	
				5 to 10 stripes.	Above 10 to 15.	Above 15 to 20.	Above 20 to 25.	Above 25 to 30.	Grand Total.			(*a*) Death.	(*b*) Illness.
Total ...	1893...	*19,377	4,329	19	17	15	72	...	123	0·6	2·8	...	...
	1894...	*19,238	4,078	10	40	33	42	11	136	0·7	3·3	...	...

* The total excludes the number moved from Prison to Prison within the Department.

Imposition of fetters.

24. The figures in the statement which follows deal with the imposition of fetters. There has been a falling off in the number of cases in which fetters have been used, and this is apparently due to a smaller number of prisoners having been employed extramurally:—

	Total number of convicts confined.		Number of Cases in which Fetters were not imposed or worn.		Number of Cases in which Fetters were imposed or worn.		Length of Time for which Fetters were imposed or worn.									
							Under 1 month.		1 to 3 months.		3 to 6 months.		6 to 12 months.		Over 12 months.		Total.	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
Total ...	21,482	803	17,262	803	4,220	...	1,026	...	771	...	691	...	928	...	805	...	4,221	...

Appendix C.—Mark system.

25. The increase in the number of prisoners released under the mark system during the year is due to the extension of the benefits of that system to labouring prisoners sentenced to one year and upwards having been in force for only six months of 1893 and throughout the whole of the past year:—

	1890.	1891.	1892.	1893.	1894.
Number on Mark rolls released ...	689	787	765	1,139	1,651
Percentage of the number on Mark rolls realeased to the number under sentence of 1 year and upwarnds	98·7	98·7	98·1	99·1	98·8

26. The number of convict officers employed in Prisons shows an increase of 2·0 per cent. in the case of males and 0·9 per cent. in the case of females. The increase in the former class is due to Convict night watchmen being included. The system of gratuities in the shape of deferred pay, payable on release, has been introduced during the year under report, and Convict officers can now,* if well behaved and diligent, earn deferred pay on the following scale: Convict warders Re. 1-0-0, Convict overseers Re. 0-8-0 and Convict night watchmen Re. 0-4-0 per mensem. This measure should act as an appreciable incentive to Convict officers to be of good behaviour. In a relative sense the number of punishments inflicted on Convict officers in 1894 shows a marked decline as compared with figures for 1893,—a state of things which goes far to support the view put forward in the preceding sentence.

Statement No. VII.—Convict officers.

*Government Resolution No. 2229 A. of 31st March 1894, paragraph 10.

Number of convict officers in 1893	...	564
Punishments	...	219
Number of convict officers in 1894,	...	856
Punishments	...	283

27. There has been no appreciable change in the diet scales during the year under report.

Statement No. VIII.—Diet.

28. This statement furnishes particulars regarding under-trial prisoners in Prisons, Subordinate Jails, and Lock-ups.

Statement No. XVIII.—Under-trial prisoners.

29. The large falling off of 2,803 in the number of males admitted during the year is to be expected, as the abnormal increase in the number in 1893 was due to the Bombay riots. The number of female prisoners admitted has been 2,407 as compared with 2,159 in 1,893. This is a large increase for this class, and a reference to the figures in the statement shows that the rise refers to those admitted into Lock-ups. The Lock-ups which have contributed to this increase have been those of Hyderabad, Broach, Poona, Belgaum, Bijápur, and Dhárwár. There have been five escapes of under-trial prisoners, four males and one female. The latter escaped from the Surat Castle Lock-up. The number of deaths of under-trial prisoners has been eighteen. Of these five died in Prisons, one in a Subordinate Jail and twelve in Lock-ups. The number of under-trial prisoners remaining in confinement at the end of the year was in Prisons 139 males and 7 females, in Jails 163 males and 5 females, and in Lock-ups 438 males and 21 females, making a total of 740 males and 33 females.

30. The number of civil prisoners remaining on the last day of 1893 was 155 males and 1 female. The number admitted during 1894 has been 1,699 males and 3 females, making a total of 1,854 males and 4 females, and the number released 1,724 males and 4 females. The number of admissions in 1894 has been less by 112 than those in 1893. The daily average number for 1893 and 1894 has been respectively 116 and 117. The number of deaths has been 3 as compared with 2 in 1893, while the number remaining on the last day of 1894 was 127 males. The total cost of maintenance of civil prisoners has been Rs. 8,713-4-11, and the average cost per prisoner Rs. 74-7-7, the figures under these heads for 1893 having been respectively Rs. 7,996-7-8 and Rs. 68-15-0. The increase in the expenditure has been mainly due to the enhancement of the halálkhor tax paid by the Bombay Civil Jail.

Civil prisoners.

FINANCIAL.

31. The gross expenditure, on account of all classes of criminal prisoners, including under-trials, in Central Prisons, Prisons, Subordinate Jails and Lock-ups during the years 1893 and 1894, is contrasted in the subjoined table :—

Statements IX and X.—Expenditure.

	1893.	1894.
	No.	No.
Average number of prisoners	8,135	8,022
	Rs. a. p.	Rs a. p.
Inspection and general superintendence... ...	26,191 0 0	26,590 0 0
Cost per prisoner	**3 3 6**	**3 5 0**
Rations	2,40,799 0 0	2,25,139 0 0
Cost per prisoner	**29 9 7**	**28 1 0**
Establishment	1,92,960 0 0	2,02,580 0 0
Cost per prisoner	**23 11 6**	**25 4 1**
Police guards	32,221 0 0	32,288 0 0
Cost per prisoner	**3 15 5**	**4 0 5**
Hospital charges	14,121 0 0	15,508 0 0
Cost per prisoner	**1 11 9**	**1 14 11**
Clothing	24,989 0 0	20,892 0 0
Cost per prisoner	**3 1 2**	**2 9 8**
Contingencies	55,311 0 0	57,088 0 0
Cost per prisoner	**6 12 9**	**7 1 10**
Gross cost of maintenance	5,86,592 0 0	5,80,085 0 0
Cost per prisoner	**72 1 8**	**72 4 11**

32. There is a decrease of Rs. 6,507, due chiefly to the daily average strength being lower, in the total expenditure as compared with the previous year. The average cost per prisoner has risen from Rs. 72-1-8 in 1893 to Rs. 72-4-11 in 1894. The cause of this increase will be explained later on.

33. The charges under the head "General Superintendence" exhibit an increase which is due to exchange compensation having been paid throughout the past year and for only a portion of 1893.

34. The cost per prisoner under the head "Rations" is less by Rs. 1-8-7 than in 1893. The decrease under this head may be ascribed to more favourable contract rates having been secured, to the grain pit system, which is in force in the Dhárwár Prison, and to the fact that the numerical strength of the Deccan and Sind Gangs has been much lower than in 1893. It may be explained that the prisoners in the two Gangs above referred to receive, owing to the nature of the work on which they are employed, a specially liberal scale of diet. The figures below show that the average cost of feeding a prisoner is largely affected by the rates obtaining in the case of the Deccan, and Sind Gangs, and of the Aden Prison. During the year under report the yearly average cost of rationing a prisoner has been in :—

Rations.

	Rs. a. p.
Bombay	... 27 13 10
Deccan	... 28 3 11
Southern Marátha Country ... Including Deccan Gang	... 30 3 2
Southern Marátha Country ... Excluding Deccan Gang	... 25 2 1
Konkan	... 26 10 4
Gujarát	... 25 3 11
Sind ... Including Sind Gang	... 27 5 6
Sind ... Excluding Sind Gang	... 25 6 1
and in Aden	... 38 8 0

35. The average ruling rates for the chief cereals during the past year are given below, and it will be observed that the average price of jowári, the grain

which is most largely consumed in the Prisons of this Presidency, has been appreciably less in 1894 than in 1893 :—

	Average Rate per Rupee.			
	1893.		1894.	
	Lbs.	ozs.	Lbs.	ozs.
Rice	19	13	20	13
Wheat	23	10	27	15
Bájri	32	4	30	15
Jowári	34	2	35	14
Dál	32	8	32	3

36. In the House of Correction the cost of rations per convict in the year 1894 has been Rs. 27-7-5 against Rs. 26-11-3 in 1893; in the Dhulia Prison Rs. 26-7-0 against Rs. 25-10-2; in the Násik Prison Rs. 22-4-5 against Rs. 21-14-7; in the Thána Prison Rs. 26-15-5 against Rs. 25-11-1; in the Rájkot Prison Rs. 26-1-6 against Rs. 26-0-4. In the above-named Prisons the rates at which provisions were obtainable in 1894 were not so favourable as in the preceding year. In all other Prisons there has been a fall in the rates for 1894, when compared with those for the preceding year. The Dhárwár Prison, in which the system of grain storage, has, as reported last year, been introduced, shows that the average cost of rationing a prisoner has been Rs. 21-13-4 during the year under report as against Rs. 24-1-2 in 1893. This favourable result is in a measure due to the storage of grain, and in a measure also to the ruling prices of staple food-grains in the district, having been more favourable. The system of grain storage at Dhárwár is being extended by the construction of additional pits, some of which have already been stocked, in that Prison. The Thána Prison has been selected for the next experiment in connection with grain storage, and a supply of cereals sufficient to last three months will be laid in. This grain will be taken out for consumption six months after it has been stored and, in the event of it being found in good condition, the system of grain storage will be extended to our large Prisons. It may be taken for granted that, if the grain keeps good in an excessively damp climate like that of Thána, the chances are that it will maintain its condition elsewhere. At Thána, and indeed generally in our coast districts, the storage of grain in pits is not a measure which would answer, and therefore in the case of the above-named Prison a large available store-room has been specially fitted up as a grain godown. The total estimated value of vegetables supplied by Prison and Jail gardens for the consumption of prisoners has been Rs. 15,947-7-2 during 1894 as compared with Rs. 16,427-2-10 during 1893. An untimely rainfall during the past year destroyed a great portion of our vegetable crops, more especially at Thána.

Establishment and Police guard.

37. The charges under establishment have increased. This increase is due to the payment of exchange compensation throughout the year to certain European officers, and to the increase of the pay of the lowest grade warders from Rs. 7 and Rs. 8 to Rs. 9 per mensem. (Government Resolution, Judicial Department No. 2229 A, dated 31st March 1894.) The increase to the salaries of the warder establishment, although involving an increased annual outlay, was a much needed measure, and one which it is anticipated should greatly tend towards enabling us to secure a better stamp of recruits for our warder staff than has hitherto been the case. To the decrease in the daily average number of prisoners may be attributed the increase per prisoner in the expenditure under the head "Police Guards." The scheme for the gradual substitution of an armed warder guard for the greater portion of the police guard formerly attached to the Sind Gang, which received the approval of Government in the communication quoted in the margin, has now been carried out,—a fact which was duly reported to Government when the measure was complete.

Government Resolution, Judicial Department, No. 5253, dated 25th September 1890.

Hospital Charges.

38. The Prisons of Bijápur, Thána, Ahmedabad, Karáchi, Hyderabad and Shikárpur all exhibit a great increase under the head "Hospital Charges." The result of this has

been to raise the average cost per prisoner from Rs. 1-11-9 in 1893 to Rs. 1-14-11 in the year under report. The increased cost of Europe medicines, caused by a low rate of exchange, has no doubt contributed to swell the expenditure under the head under immediate reference, while it may be added that a growing tendency amongst the medical officers of the Department to prescribe the more expensive spirituous liquors, in the way of stimulants, for their patients—a practice the propriety of which I do not desire in any way to question—has also been a factor in increasing the hospital charges.

Clothing.

39. With an increase in expenditure under the head "Clothing" during the year 1893, at a time when the stock of prison clothing was largely replenished, a decline in the expenditure under this head in the year following was to be looked for. The average cost per prisoner for clothing has been seven annas and six pies less in 1894 than in the previous year.

Contingencies.

40. The total expenditure under the head of "Contingencies" has amounted to Rs. 57,088 during the past year as compared with Rs. 55,311 during the year 1893. The average expenditure per prisoner in Central Prisons and Prisons has been Rs. 6-5-2 and in Subordinate Jails and Lock-ups Rs. 8-5-11 and Rs. 17-0-8 respectively. The increase in connection with Jails has been due to a larger number of prisoners having been transferred, and to the inclusion for the first time in the Departmental report of the figures of the Wadhwan Jail, the expenditure per prisoner in which has amounted to Rs. 14-8-0. The increase under this head in the Presidency Prisons will be explained later on. That in the Ahmedabad and Dhárwár Prisons has been chiefly due to a renewal of dead stock, and in other Prisons, except Thána, either to the revised grant of local allowances to Hospital Assistants, or to the supply of clothing to establishment. The increase in the Thána Prison may be set down to enhanced transportation charges.

41. The annexed table deals with the expenditure on account of contingencies incurred in Central Prisons and Prisons during the past two years:—

	1893.	1894.	Increase.	Decrease.
Sanctioned Charges.	Rs.	Rs.	Rs.	Rs.
House-tax	400	417	17	...
House-rent	883	874	...	9
Horse allowance	900	889	...	11
Travelling allowances and expenses ...	651	475	...	176
Special allowances to Hospital Assistants...	1,090	1,723	633	...
Clothing to establishment	3,055	1,245	...	1,810
Water-rates	6,182	6,204	22	...
Total ...	13,161	11,827	672	2,006 1,334
Controllable Charges.				
Deferred pay to released Convict officers ...	...	646	646	...
Moving prisoners	5,015	4,611	...	404
Transportation charges	1,126	1,621	495	...
Service postage stamps	1,558	1,424	...	134
Dead stock	4,748	2,896	...	1,852
Subsistence money to released prisoners ...	3,544	3,330	...	214
Country stationery	301	228	...	73
Oil for lighting	4,302	4,356	54	...
Telegraph charges	101	87	...	14
Other petty contingencies	8,612	14,176	5,564	...
Total ...	29,307	33,375	6,759 4,068	2,691
Grand Total ...	42,468	45,202	7,431 2,734	4,697

42. Under the head of "Sanctioned charges," the increase in the item "Allowances to Hospital Assistants" has been brought about by the revised scale of allowancessanctioned in Government Resolution, Judicial Department No. 2299A, dated 31st March 1894. These allowances are now disbursed half-yearly after, in each case, a report has been received from the Superintendent, or, in those cases in which the Superintendent is not the Medical Officer, from the Superintendent and from the Medical Officer, as to the manner in which the Hospital Assistant has carried out his duties during the period for which the allowance—which is subject to deduction should the report be unfavourable—is claimed. The above arrangement gives the Inspector-General a much-needed control over the Hospital Assistants of the Department, which until recently he was not in a position to exercise. The decrease in the charge "Clothing to Establishment" has been caused by the biennial supply falling due to a smaller number of Prisons in 1894 than in 1893. Of the controllable charges the item "Deferred pay to Convict officers" appears for the first time. *Government have directed that such charges should be drawn on establishment bills, and this is now done, but as budget provision had been made under the head of "Contingencies" for the outgoings under reference, the expenditure has been shown under that head. These gratuities are paid at the time of release to those Convict officers by whom they have been earned. The reduction in the number of prisoners transferred to the Deccan Gang, owing to want of work, has caused a falling off in the expenditure under "Moving prisoners." This falling off would have been considerably greater had it not been for the fact that the removal of one European insane prisoner from Aden to Colába involved an expenditure amounting to Rs. 769-12-0. The increase under "Transportation charges" is partly due to a larger number of convicts having been transported, and partly to the use of the specially fitted carriages which have been provided by the Great Indian Peninsula Railway for the conveyance of prisoners, as haulage on the foreign (Madras Railway) and home lines for the return of the carriages from Madras has been charged by the Companies. The question of the haulage charges on the home line is still under discussion with the Great Indian Peninsula Railway authorities. There is a decrease under the heads "Service Postage Stamps," "Dead Stock," "Subsistence Money," "Country Stationery," and "Telegraph charges." The increase in the charge "Oil for lighting" is small. The sum of Rs. 5,564 represents the increase over the figures of the previous year under the head "Petty Contingencies." If it had not been for the charges, which may be characterised as unavoidable, referred to below, this head would have exhibited a decrease, and there would also have been a decrease in the average cost per prisoner. The charges* referred to are the payment of enhanced halálkhor taxes by the Presidency Prisons as sanctioned by Government Resolution, General Department, No. 2544, dated 9th July 1894.

*Government Resolution, Judicial Department, No. 6333, dated 17th September 1894.

* Paid under head in 1893 Rs. 1,027, in 1894 Rs. 6,741

43. The following table exhibits the employment of the convicts for the last two years :—

* Statement No. XI.—Employment of convicts.

		Average number under sentence to labour.	Sick and convalescent.	Average number not employed for other reasons.	On unremunerative labour.	Prison officers.	Prison servants.	Gardening.	Grinding grain and preparing articles for prison use.	On additions, alterations and repairs to prison buildings.	Manufactures.	Extramural labour.
1893 ..	Number	6,889	544	...	295	326	654	404	945	380	2,165	1,176
	Percentage...	100	7·9	...	4·3	4·7	9·5	5·9	13·7	5·5	31·4	17·1
1894 ...	Number	6,932	436	110	363	461	648	403	951	695	2,202	663
	Percentage...	100	6·3	1·6	5·2	6·7	9·3	5·9	13.7	10·0	31·8	9·5

44. The figures in connection with the number of prisoners sentenced to labour show that the daily average number has been greater by 43 in 1894 than the preceding year. The daily average of sick and convalescent has decreased from 544 in 1893 to 436 in 1894. The number "not employed for other reasons" has been 110, this column having now been inserted for the first time in State-

ment No. XI.—(Government Resolution, Judicial Department, No. 4965, dated 17th July 1894). There has been an increase in the number employed on unremunerative labour. This is due to a gang of prisoners of the Bijápur Prison having been employed on clearing prickly-pear and destroying famine weed in that station, a much needed work for which, beyond paying for the extra warder establishment thereby rendered necessary, the Public Works Department were not in a position to provide any funds.—(Government Resolution, Judicial Department, No. 5320, dated 31st July 1894). Some of the convicts in the Rájkot Prison, too, have been employed during the past year in cleaning and levelling the grounds of the West Hospital at that station, a work for which this Department has not received any payment. The rise under the head "Prison officers" has been caused by the increased employment of Night watchmen, and the classification of these men as Convict Officers. The increased number under the head "Additions, alterations, &c., to Prison buildings" is due to a large number of prisoners having been employed on the new Central Prisons at Hyderabad and Ahmedabad. A slight increase is observable in the number employed on "Manufactures," while a heavy falling off appears in the number of prisoners employed extramurally. The latter has been mainly due to the daily average strength of the Deccan Gang having fallen from 418 in 1893 to 254 in the past year, while the Sind Gang also exhibits a decrease in daily average strength from 382 in the earlier to 309 in the later year.

Statement No. XII.—Cash earnings.

45. This statement shows the net cash earnings of convicts sentenced to labour in Prisons and Jails. The earnings during the year under report have amounted to Rs. 92,787-2-0, and when compared with the figures for 1893, show a decrease of Rs. 41,610-9-0. The average earnings of each prisoner sentenced to labour have been Rs. 13 and the average earnings for each prisoner employed on jail manufactures have been Rs. 27-11-0 against Rs. 18-15-0 and Rs. 37 14-0, respectively, in the previous year. The following table compares the net cash earnings, *i.e.*, practically the difference between cash paid into and cash drawn from the treasury—in connection with the manufactory account.—(*Vide* column 11, Statement No. XII, under the several heads shown therein):—

	1893.	1894.
	Rs.	Rs.
Factory	51,494	44,448
Garden	3,944	3,304
Extramural labour	74,463	25,302
Building and repairing Prisons	2,666	17,693
Subordinate Jails	1,831	2,040
Total ...	1,34,398	92,787

Factory.

46. The above figures in connection with the factory show a falling off of Rs. 7,046, *i e.*, the *cash* realizations in 1894 have been less by the above sum than was the case in 1893. The above state of affairs is largely counterbalanced if regard be had to the increase*, on the last day of 1894, over the figures for the corresponding date in the preceding year, under outstandings recoverable, and value of raw materials and manufactured articles in hand. Of the factories in Prisons the House of Correction shows a decrease in profits which is partly ascribed to the depression in trade. The staple manufacture of this Prison and of the Common Prison is coir matting, large quantities of which are purchased by shipping firms. The Common Prison shows an increase in profits, not however equal to the decline in the case of the House of Correction. The Prisons of Násik, Ratnágiri, Thána, Dhuliákot, Kaira, Rájkot, Karáchi and Shikárpur all show a falling off in the earnings of their factories, and the reason assigned in most cases is a somewhat simple one, namely, a lack of demand for prison-made articles. Reference was made, in paragraph 49 of the report of this Department for 1892, to certain special causes which had at that time practically wrecked the pros-

	31st December 1893.	31st December 1894.

		—36,251
Increase ...		6,228

perity of the carpet-making industry in the Prison of Thána. The factory profits in this Prison for 1894 exhibit a decline, as compared with those for 1893, of some Rs. 217. The Dhárwár Prison factory has realised Rs. 1,088 and the Yerrowda Prison factory Rs. 1,979 over their respective realization for 1893, and these results may be regarded as very satisfactory. The preparation of the five-grain packets of quinine, for sale to the public through the agency of the Post Office (Government Resolution, General Department, No. 4466, dated 28th November 1894), has been entrusted to the Yerrowda Prison, and the results will be commented on next year. In the remaining Prisons to which reference has not been made in this paragraph, there has in each instance been an increase in factory profits, not, however, in any one case sufficiently substantial to call for special remark.

Garden.

47. The fall in garden profits, aggregating Rs. 640, has been due, as already explained, in a considerable measure to an untimely rainfall here and there. Under the recent orders of Government (Government Resolution, Judicial Department, No. 8643, dated 28th December 1894) in future annual reports garden operations will be classified under the head of "Maintenance" and not under that of "Manufactures."

Extramural labour.
Building and repairing Prisons.

48. In previous years the earnings realized from the employment of prisoners on the building of new Prisons were shown under the head "Extramural." This year, however, they have been shown under the fourth head of the table appearing at the foot of paragraph 45 of this report. For the purposes of comparison with the results of 1893, it will therefore be necessary to deal with these two heads together. In 1893 the total earnings under the heads marginally noted amounted to Rs. 77,129, while in the year under report they have only reached the sum of Rs. 42,995,—a falling off of Rs. 34,134. Under the head "Extramural" the Prisons of Yerrowda, Dhulia (Dedargaon Gang—the work on which this Gang was employed was completed by the end of October 1894—) Thána, Kaira—in a small measure—and Dhuliákot exhibit in each case an increase in the earnings, while the Deccan Gang which ordinarily exhibits large realizations under this head has earned during the year under report only Rs. 2,144 against Rs. 17,158 during the year previous. This Gang even at its abnormally low strength of 254 has been practically idle throughout the year, as no suitable work could be obtained for the prisoners belonging to it while it remained in the neighbourhood of Dhárwár. Had the Dhárwár water-works scheme been undertaken early in 1894, as at one time was contemplated, and the Deccan Gang, at a strength of 600 prisoners been employed thereon, as was also at one time contemplated, it is hardly too much to say that instead of showing earnings amounting to very little over Rs. 2,000 for the year under report, the Gang earnings for the year would have amounted to about Rs. 27,000. Towards the close of the year this Gang was moved to Chopda in the Khándesh District (Government Resolution, Judicial Department, No. 8078, dated 4th December 1894), where remunerative work has been secured. The prisoners of the Hyderabad Prison and of the Sind Gang earned under the heads "Extramural" and "Building and repairing Prisons" Rs. 4,811-6-3 and Rs. 13,928-15-0 respectively, the figures under the same heads for 1893 having been Rs. 13,163-10-8 and Rs. 15,944-8-9. In the case of the Hyderabad Prison the decrease has been mainly due to a sum of Rs. 6,434-13-2 having been deducted on account of the value of materials supplied, not only during the year under report but also during the preceding year. The decrease in the Sind Gang is attributable to a smaller number of prisoners having been employed. The Gang in question has during 1894 been without a sufficient quantity of work to call for its being maintained at anything like its normal strength of 500 prisoners. Towards the close of the year, on the 15th November last, this Gang having completed its labours in connection with the new Central Prison at Hyderabad moved to Bahadipur in the Karáchi District (Government Resolution, Judicial Department, No. 7461, dated 8th November 1894), where it is anticipated that it will be employed until June next, after which the prisoners will be moved and put to work on the Jamrao Canal Project (Government Resolution, Judicial Department, No. 4642, dated 3rd July 1894), which it is expected will provide work for the Gang for several years to come. The receipts of the Bijápur Prison under the head "Extramural" are Rs. 3,535 less than in

the previous year, and for a Prison such as Bijápur the decrease is a large one. As already explained in paragraph 44 of this report, a number of the Bijápur prisoners have been engaged on clearing away the prickly-pear and famine weed in that station, and under the terms of Government Resolution, Judicial Department, No. 5320, dated 31st July 1894, the labour is not charged for.

Earnings of Subordinate Jails.

49. The earnings of the Subordinate Jails have risen from Rs. 1,831 in 1893 to Rs. 2,040 in 1894. Amongst these Jails those at Umarkot, Broach and Sholápur show satisfactory earnings.

Statement No. XIII.—Net cost.

50. This statement shows the total cost of guarding and maintenance for Central Prisons, Prisons, Subordinate Jails and Lock-ups. The total expenditure, excluding "Inspection charges," has been Rs. 5,53,495 against Rs. 5,60,401 in 1893, a decrease of Rs. 6,906. The actual cash realizations have been Rs. 92,787 against Rs. 1,34,398 in 1893, a decrease of Rs. 41,611, thus making the total net cost to Government of this Department Rs. 4,60,708 in 1894 against Rs. 4,26,003 in 1893, an increase of Rs. 34,705. The net cost per prisoner in 1893 was Rs. 52-6-0 while in 1894 it has been Rs. 57-7-0, an increase of Rs. 5-1-0, a result which may be largely set down to the want of suitable and sufficient remunerative work for the Deccan and Sind Gangs.

VITAL.

Statement No. XIV.—Sickness and mortality.

51. This statement deals with the sickness and mortality among prisoners of all classes during the year. The statistics in connection with Civil Jails are here inserted for the fist time, (Government Resolution, Judicial Department, No. 846, dated 7th February 1894.) With a daily average strength of 8,139 confined in Prisons, Subordinate Jails, Civil Jails and Lock-ups, there have been 6,593 admissions into hospital; the daily average number of sick has been 235·3; and the total number of deaths 261, or 32·1 per mille of average strength. As stated above, the figures in this statement for the first time include prisoners in Civil Jails. The daily average strength of Prisons, Jails, Lock-ups and Civil Jails during 1893 has been ascertained to have been 8,251, and the total number of deaths 209 or 25·3 per mille of average strength, a result which shows that the health of the prisoners has not been so good in 1894 as it was in 1893.

52. The capacity of the several Prisons is shown in the subjoined table :—

Prisons.	Capacity, inclusive of Hospital and Cell accommodation.	Daily Average.	Maximum Population.
Common Prison	180	249	313
House of Correction	262	315	355
Yerrowda	1,482	1,495	1,653
Násik	31	47	80
Dhulia	199	372	467
Bijápur	294	277	318
Dhárwár	336	354	394
Kárwár	252	91	122
Ratnágiri	228	91	122
Thána	653	733	832
Ahmedabad	373	471	518
Dhuliákot	380	194	231
Kaira	136	176	235
Surat	149	194	225
Rájkot	102	54	63
Karáchi	412	350	408
Hyderabad	864	588	795
Shikárpur	433	479	594
Aden	61	56	77
Total ...	6,827	6,586	7,802

53. Eleven out of the nineteen Prisons have been overcrowded throughout the past year. The Deccan Gang had, owing to dearth of employment for its prisoners, to be kept at a very low figure as regards its numerical strength, a state of things which led to overcrowding in a number of the Prisons above referred to. The two coast Prisons of Ratnágiri and Kárwár cannot, by reason of their situation, be conveniently used to relieve overcrowding in other Prisons, and that is why during the past year such a quantity of accommodation was lying idle. As explained in last year's report, the Dedargaon Gang, an offshoot gang from the Prison of Dhulia, though in dealing with the question of the population of that Prison reckoned as belonging thereto, was accommodated in a camp of its own at some little distance from Dhulia. This Gang, of which the daily average strength was 129 during the past year, was, on its labours at Dedargaon being completed, broken up in October last. In the month of July last the old Hyderabad Prison had to be hurriedly vacated as the buildings, owing to an abnormally heavy local rainfall, were deemed to be unsafe. The Hyderabad prisoners were located in one polygon of the new Central Prison, while those of the Sind Gang occupied the other. On the opening of the Hyderabad Central Prison on the 1st December last, the prisoners of the Sind Gang moved into camp at Bahadipur. The capacity shown against the Hyderabad Prison refers to the new Central Prison, but these figures are likely to be revised to a slight extent. It is right to point out that the figures illustrating the daily average strength and maximum number on any one day of the prisoners occupying the new Hyderabad Central Prison are not altogether reliable as, owing to the presence of the Sind Gang in the Prison, there was, if regard be had only to the sleeping accommodation therein provided, considerable overcrowding, the joint population of the Prison and the Gang having at one time risen as high as 1,043 prisoners. In view, however, of the fact that the worksheds were employed to accommodate some of the prisoners at night, the overcrowding may be said to have been merely nominal.

54. The table below deals with the sickness and mortality amongst convicted and under-trial prisoners confined in Prisons during the years 1893 and 1894:—

	1893.			1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
Total population	28,214	982	29,196	24,110	916	25,026
Daily average strength	7,015	222	7,237	6,948	201	7,149
Number admitted into Hospital ...	5,823	144	5,967	5,874	121	5,995
Daily average sick	213·7	7·6	221·3	213·9	7·1	221·0
Number of deaths	183	4	187	236	2	238
Ratio per mille of deaths to total population...	6·5	4·1	6·4	9 8	2·2	9·5
Do. do. to strength...	26·1	18·0	25·8	34·0	9·9	33·3
Do. do. to admission into Hospital...	31·4	27·8	31·3	40·2	16·5	39·7

Mortality in Prisons.

55. The number of deaths in Prisons has been 238 against 187 in the year 1893. The ten Prisons of Aden, Bijápur, Ahmedabad, Karáchi, Kárwár, Thána, Dhuliákot, Surat, Shikárpur and Kaira all show a mortality in excess of 33·3 per mille.

Kaira.—This Prison has always been more or less unhealthy. Of the twenty deaths that occurred in this Prison, 4 were from dysentery, 1 from anœmia, 9 from pneumonia, 1 from phthisis, 3 from diarrhœa, 1 from meningitis, and 1 from Bright's disease. During August last, portions of the Prison were flooded, but this does not appear to have prejudicially affected the health of the inmates.

Shikárpur.—Twenty-four deaths occurred in this Prison. Of this number 16 were caused by pneumonia, and ten of this last number occurred during the month of February. Some minor improvements in the ventilation of the sleeping barracks, which were suggested by the Medical Officer, have been carried out in this Prison which, as Government are aware, has during past years borne an evil

reputation by reason of the periodical outbreaks of pneumonia with which it has been visited. The opening of the Hyderabad Central Prison will in future altogether prevent overcrowding in the Shikárpur Prison and this should tend to reduce the number—relative as well as absolute—of pneumonia cases occurring in the latter Prison in the cold weather months, so long as it is occupied. The plans and estimates for the enlargement of the Sukkur Subordinate Jail (*vide* paragraph 13 of Government Resolution, Judicial Department, No. 3815, dated 23rd June 1893) so as to admit of the removal of the District Prison from Shikárpur to Sukkur have not as yet been received by me from the Executive Engineer of Shikárpur, but they will, I trust, ere long come to hand, when I shall be in a position to place the scheme for the removal of the District Prison to Sukkur before Government in all—in a financial sense—its bearings.

Surat and Dhuliákot.—These Prisons both show a mortality of 46·4 per mille, the death-rates in 1893 having been 65·2 and 31·7 per mille, respectively.

Thána.—The death-rate in this Prison has been 47·7 per mille as compared with 23·3 in 1893, or more than double. The Medical Officer states that "diseases of the respiratory organs have caused a great deal of mortality, especially among the aged and long-termers." Two of the deaths were due to leprosy contracted before admission into Prison, and two prisoners died from cholera. There were five fatal cases of Remittent fever, four of which were in the last quarter of the year. In the month of November alone there were thirteen deaths, more than one-third of the total number for the year. The rainy season in Thána in 1894 was prolonged to a somewhat unusually late period.

Karáchi.—Fifteen deaths occurred in this Prison, ten of which were caused by pneumonia.

Ahmedabad.—Nineteen deaths occurred in the Ahmedabad Prison during the year under report as compared with twelve in 1893. Of the nineteen cases, lung affections account for fourteen. An improvement has been made in the pattern of prison clothing supplied to the convicts of this Prison.

Bijápur.—Of the ten deaths which took place, two were from gunshot wounds received during an attempt to break Jail on the part of a gang of dacoit prisoners. Six out of the eight deaths which occurred from ordinary cases took place during the first four months of the year and were caused by dysentery 1, by phthisis 1, by acute bronchitis 1, by diarrhœa 1, by pneumonia 1 and by ague 1.

Kárwár and Aden.—These are small Prisons, and though the ratio of mortality has been 44·0 per mille in the case of Kárwár and 34·5 per mille in that of Aden, the actual number of deaths during 1894 has only been 4 in the former and 2 in the latter Prison.

56. Of the ten Prisons mentioned in the foregoing paragraph five, as a reference to the statement given in paragraph 52 of this report will show, were overcrowded throughout the year.

57. The annexed table compares the sickness and mortality in Subordinate Jails and Lock-ups during the past two years :—

	1893.						1894.					
	Jails.			Lock-ups.			Jails.			Lock-ups.		
	Males.	Females	Total.	Males.	Females	Total.	Males.	Females	Total.	Males.	Females	Total.
Total population	5,744	305	6,049	40,240	1,958	42,198	5,697	283	5,980	40,370	2,203	42,573
Daily average strength	323	16	339	536	23	559	330	15	345	506	22	528
Number admitted into hospital...	344	9	353	231	18	249	304	9	313	259	11	270
Daily average sick	6·9	·35	7·25	4·85	0·29	5·14	8·4	0·7	9·1	4·7	0·1	4·8
Number of deaths	7	...	7	11	2	13	8	...	8	11	1	12
Ratio per mille of deaths to total population.	1·2	...	1·2	0·3	1·0	0·3	1·4	...	1·3	0·3	0·5	0·3
Do. do. strength ...	21·7	...	20·6	20·5	87·	23·3	24·2	...	23·2	21·7	45·5	22·7
Do. do. admission..	20·3	...	19·8	47·6	111·1	52·2	26·3	...	25·6	42·5	90·9	44·4

58. The daily average number of sick in Subordinate Jails has been 9·1 against 7·25 in 1893, and in Lock-ups 4·8 as compared with 5·14. The number of deaths in Subordinate Jails has been 8 and in Lock-ups 12. The figures under these last two heads in 1893 were respectively 7 and 13.

59. The following table is an abstract of Statement XV and shows the number of admissions into Hospital and of deaths from the chief diseases among convicts confined in Prisons during the year under report and that previous to it :—

Statement No. XV.

	1893.		1894.	
	Admissions.	Deaths.	Admissions.	Deaths.
Small-pox	4	...	...	...
Intermittent fever	2,529	3.	2,268	3
Remittent and continued fever ...	114	7	95	5
Other fevers	28	5	66	1
Cholera	27	21	13	8
Scrofula and phthisis pulmonalis ...	16	9	26	11
Anœmia and general debility... ...	79	12	84	11
Respiratory diseases	502	53	569	100
Dysentery and diarrhœa	760	35	831	41
Jaundice	44	1	44	...
Ulcers and boils	115	...	186	1

60. The numbers of convicts admitted into Hospital for intermittent and remittent and continued fevers show a decrease when compared with the figures for 1893, but under the head "Other fevers" there is an increase. This increase is entirely due to the number of admissions, into the Dhárwár Prison Hospital, of prisoners suffering from influenza. There were eight deaths from cholera,—one in the Common Prison, two in Yerrowda, one in Násik, two in Thána and two in Surat.

61. The following information is not, I think, without interest in connection with the subject of cholera in our Prisons. The Ahmedabad City Prison, which was vacated and finally closed on the 31st of last December, during the four calendar years 1887 to 1890—and in every one of those four years the disease made its appearance in the Prison—produced 24 cases of cholera among its prisoners, 15 of which cases proved fatal. Formerly the City Prison used to derive its water-supply from a shallow well sunk in the bed of the Sábarmati river close to the left bank of that stream, and immediately abreast of the Prison. On the 1st of September 1891 the City Prison commenced to derive its water-supply from the then new Municipal wells sunk in the bed of the Sábarmati some distance above the city of Ahmedabad, the old source of supply being finally closed on the abovenamed date. Between that date and the 31st of last December, when the Prison was finally vacated, *i.e.* during a period of three years and four months, its population was absolutely free from cholera. I assumed charge of the Prison Department in December 1886 and the foregoing remarks, regarding the late City Prison of Ahmedabad, relate to the eight years which have elapsed since the last named date.

62. The figures for the year under report show an increase of ten in the number of admissions and two in the number of deaths caused by "Scrofula and phthisis pulmonalis." The number of deaths under the head "Respiratory diseases" has been 100, or 47 in excess of the number which occurred during the year 1893. The three Sind Prisons of Karáchi, Hyderabad and Shikárpur all exhibit an increased death-rate under this head, as do also the Prisons of Ahmedabad, Yerrowda, Thána and Kaira. There is an increase in the number of admissions for "Ulcers and boils" and the Dhárwár Prison shows one death from such diseases. There has been an increase in the number of admissions under the head "Dysentery and diarrhœa." No apparent cause can be assigned for this, and it is somewhat strange that the increase is in those Prisons where the analysis of the drinking water has proved satisfactory.

63. This statement has been revised under the orders of Government contained in Government Resolution, Judicial Department, No. 408, dated 22nd January 1894, and now

Statement No. XVI.

shows the mortality according to length of original sentence instead of according to age. The figures for 1893 are not available, as the information above referred to has to be obtained from a monthly census, and no comparison can therefore be made with the results, under the head under reference, for that year. During 1894 the death-rate has been highest amongst those convicts sentenced from 1 to 3 years.

Statement No. XVII.—Mortality according to length of residence in Prison.

64. The following is an abstract of Statement XVII and shows the mortality according to the length of time passed in prison :—

	1893.			1894.		
	Average Number.	Deaths.	Ratio of deaths per mille of average strength.	Average Number.	Deaths.	Ratio of deaths per mille of average strength.
Under 6 months in Prison ...	3,406	90	26·4	3,494	100	28·6
From 6 to 12 months	1,313	33	25·1	1,177	39	33·1
„ 1 to 2 years	1,050	31	29·5	1,011	43	42·5
„ 2 to 3 „	506	5	9·9	487	15	30·8
„ 3 to 7 „	490	14	28·6	591	26	44·0
Above 7 years	197	9	45·7	222	10	45·0
Total ...	6,962	182	26·1	6,982	233	33·4

65. An increase in ratio is very marked under the third, fourth—where the rise is very pronounced—and fifth heads in the above table.

66. The table below contrasts for the years 1893 and 1894 the figures in connection with what is commonly termed the weight test. There is a falling off in the numbers under the heads "Gained weight" and "Remained stationary." There is an increase of 2·5 in the percentage of the number who lost weight, a result to which the Common Prison and the Prisons of Násik, Surat and those of Sind have mainly contributed :—

	1893.		1894.	
	Number.	Percentage.	Number.	Percentage.
Numbers discharged during the year ...	16,048	...	15,210	...
Do. who gained weight	8,691	54·2	8,127	53·4
Do. who lost weight	4,124	25·7	4,282	28·2
Do. who remained stationary ...	3,233	20·1	2,801	18·4

OFFICIAL AND NON-OFFICIAL VISITORS.

67. The table below deals with the inspection, by official and duly appointed non-official visitors, of Prisons and Jails. In the House of Correction and in the Prisons of Kaira, Surat, Rájkot and Shikárpur the full number of quarterly meetings was not held. In the Aden Prison there was no quarterly meeting during the year. The non-official visitors, who are credited with 260 visits during the past year, appear to have taken an appreciably keener interest in their honorary duties than in the year previous when their visits were 65 in number :—

No.	Prisons.	Number of Official Visitors appointed.	Quarterly Meetings.					Number of other occasions on which an Official Visitor visited the Prisons during the year.	Number of Visits paid by appointed Non-official Visitors during the year.
			Number in the year.	Number of Official Visitors present.

GENERAL REMARKS.

69. The following Prisons, Gangs, and Jails have been visited and inspected by me during the past year :—

Central Prison.

Yerrowda.

Prisons.

Shikárpur.
Hyderabad.
Karáchi.
Rájkot.
Ahmedabad.
Dhuliákot.
Kaira.
Surat.
Thána.
House of Correction.
Common Prison.
Bijápur.

Prisons—continued.

Dhárwár.
Dhulia.

Gangs.

Deccan.
Sind.

Subordinate Jails.

Umarkot.
Wadhwán.
Deesa.
Dohad.
Broach.
Sholápur.
Sátára.
Belgaum.
Bhusával.

70. The history of the past year, in so far as this Department is concerned, has been marked by an unusual number of more or less important measures. The introduction on the 1st of July of the Indian Prisons Act No. IX of 1894,—a statute which has in many respects revolutionized this Department—would of itself alone have sufficed to distinguish the year with which the report deals as one of many changes. The completion and occupation on the 1st of October of the new Prison at Rájkot; the opening on the 1st of December of the new Central Prison at Hyderabad; the disappearance with the close of the year 1894 of the

Prisons of Ahmedabad, Dhuliákot and Kaira, and the reduction at the same time of the Surat Prison to the status of a Subordinate Jail—the new Ahmedabad Central Prison commenced its career on New Year's Day of the present year, and its birth does not therefore belong to the chronicle of departmental occurrences for 1894—the substitution of personal for local grading of jailors; the reclassification of the warder establishment; the increase of the pay of the two lowest grades of warders from Rs. 7 and Rs. 8 to Rs. 9 a month, and the grant of an increased clothing allowance to the members of the warder establishment; the grant of deferred local allowances to Prison Hospital Assistants in all cases; the payment, on discharge, of deferred pay to Convict officers; and the revision of our registers and forms, are all events belonging to the past year, a period during which, in regard to departmental land marks, some have newly sprung up, while other familiar old friends have disappeared, a period which I am respectfully disposed to hope that Government may be inclined to regard as an era not alone of change but also, in many ways, of progress.

I have the honour to be,
Sir,
Your most obedient Servant,

T. M. FILGATE,
Inspector-General of Prisons.

21	Áden	Surgeon-Major J. W. T. Anderson and Surgeon-Lieutenant-Colonel S. B. Haliday.	Mr. Cáwasji Jamsetji Modi.

Annual and Periodical Reports.—

Bombay Prisons—Report on the—for the year 1894.

No. 4005.

JUDICIAL DEPARTMENT.

Bombay Castle, 17th June 1895.

Letter from the Inspector-General of Prisons, No. 2267, dated 4th May 1895—Submitting the Annual Report on the Prisons of the Bombay Presidency for the year 1894.

RESOLUTION.—The total number of persons confined during 1894 was 75,437 as compared with 79,393 in 1893, while the admissions were 67,329 as against 71,364. The daily average fell from 8,251 to 8,139 in consequence. These figures include the statistics for the Civil Jails which have this year been appropriately included in the general summary instead of in a separate appendix. The main cause of the general decrease is the re-action after the Bombay riots of 1893, which abnormally filled the prisons of Bombay and Thána with under-trial prisoners. The Shikárpur prison, however, also shows a marked decrease which has not been explained. The total number of convicts admitted during the year was 15,011, which is a further substantial decrease from previous years. The following statement gives the comparison for five years. It must, however, be remembered that the total admissions prior to 1893, as explained in last year's review, do not include certain heavy items which are included in the admissions for 1894, while the figure for 1894, as explained above, also includes the statistics for Civil Jails :—

Year.	Total admissions.	Admissions of convicts.	Percentage of admissions of convicts to total admissions.
1890	52,538	15,849	30
1891	53,540	15,931	30
1892	52,682	16,209	30·7
1893	69,550	15,221	22·3
1894	67,329	15,011	22·1

The unexpected increase in the admissions of convicts into the Common Prison, Bombay, is somewhat remarkable, and it would have been interesting to have had an explanation of it.

2. The following statement taken from paragraph 10 of Mr. Filgate's report shows the number and disposal of convicted prisoners is 1893 and 1894 :—

	1893.			1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
Transferred to other Prisons—						
To undergo sentence	3,967	78	4,045	3,126	95	3,221
For transportation beyond seas, &c....	96	10	106	127	7	134
Released on appeal	748	28	776	876	28	904
Do. on expiry of sentence	12,418	678	13,096	11,604	591	12,195
Do. under Remission Rules ...	1,104	35	1,139	1,599	52	1,651
Do. by order of Government on account of sickness ...	3	...	3	1	1	2
Do. on other grounds	7	...	7	24	...	24
Transported beyond seas	91	7	98	106	6	112
Transferred to lunatic asylums ...	1	...	1	8	...	8
Escaped	12	...	12	15	...	15
Executed	34	...	34	31	...	31
Died	182	4	186	238	2	240
Number remaining on 31st December...	7,091	219	7,310	6,832	196	7,028
Total ...	25,754	1,059	26,813	24,587	978	25,565

The marked decrease in the number transferred to undergo sentences in other prisons is attributed to the effects of the Bombay riots, and the increase in releases under the Remission Rules to the recent admission of prisoners sentenced

to one year's imprisonment to the benefit of those Rules. The increase in the number of releases on appeal to a figure higher even than that of 1892 is not satisfactory, and the increase in the number of deaths, though below the figure of 1892, is to be regretted. The increase in the number released by order of Government on other grounds is mainly due to the release of a batch of 14 prisoners in accordance with Government Resolution No. 5186, dated 22nd August 1894, Political Department. The number of escapes was again high, being larger than in last year. It is hoped that the introduction during the year under report of the improved scale of pay in the lowest grades of the warder establishment will tend to reduce the numbers in future years. The figures for the past two years were 24 and 21, respectively. The Inspector-General appears, however, to have taken appropriate steps in each case to punish the persons responsible. The outbreak in the Bijápur Prison has been separately dealt with by Government in Government Resolution No. 3928, dated the 13th June, 1895. The number of females admitted showed a further decrease of 63 to 661 and the number of juveniles from 105 to 92. With regard to the Inspector-General's remark on the increase in the number of convicts admitted who were able both to read and write, it is to be observed that there is an almost exactly corresponding decrease in those who could read only. The variations in the sentences passed on the convicts admitted call for no special remarks.

3. The Bertillon system of identifying prisoners who have been previously convicted was introduced during the year under report. The system is, however, only in its infancy, and it would be too early to expect as yet any marked results from it.

4. The table prepared from Statement VI and given by the Inspector-General in paragraph 22 of his report contrasts the number and descriptions of punishments inflicted for offences committed by convicts during the past two years. While there is an increase from 23 to 29 in the number of cases dealt with by the Criminal Courts, there is a decrease in those disposed of by the Superintendents. The Governor in Council learns with regret that one of the former cases resulted in the death of a warder. There is a marked increase among the latter in punishments by solitary confinement with and without penal diet. This is attributed to a great extent to the abolition of the stocks.

5. There were 856 convict officers employed during the year, against 564 in the year before. The increase is attributed to the inclusion of night-watchmen. The Governor in Council notes with satisfaction the relative decrease in the number of punishments inflicted on convict officers, which is said to be due to an appreciable extent to the introduction of the system of gratuities in the shape of deferred pay.

6. There has been no appreciable change in the diet scales during the year under report and with reference to the observations in last year's review in paragraph 8 of Government Resolution No. 4540, dated 29th June, 1894, on Mr. Filgate's remarks as to the inelasticity of the present scale, the Inspector-General's proposals are still awaited.

7. The following table compares the number of under-trial prisoners in prisons, subordinate jails and lock-ups with those confined in 1892 :—

	1893.	1894.
Prisons.		
Number remaining at close of previous year	160	170
Number admitted during year	5,674	2,571
Total ...	5,834	2,741
Subordinate Jails and Lock-ups.		
Number remaining at close of previous year	526	455
Number admitted during year	44,270	44,818
Total ...	44,787	45,273
Grand Total ...	50,630	48,014

The decreased admission into prisons was due to the return to a normal state of affairs after the Bombay riots. There was a marked increase in the number of females admitted into lock-ups, for which no explanation is offered. There were 5 escapes of under-trial prisoners, as against 15 and 17 respectively in the two preceding years, which is a satisfactory decrease. Deaths decreased from 21 to 18, 12 of which were in lock-ups.

8. Civil prisoners have ceased to be shown separately in an appendix and have been included in the general summary in accordance with the orders contained in Government Resolution No. 846, dated 7th February 1894. From paragraph 30 of Mr. Filgate's report it appears that admissions have decreased from 1,814 to 1,702, while the daily average has risen from 116 to 117, which leads to the assumption that the terms of imprisonment were generally longer. The average cost per prisoner has risen from Rs. 68-15-0 to Rs. 74-7-7, which is attributed mainly to the enhancement of the Halâlkhor tax paid by the Bombay Civil Jail. The increase must, however, be partly due to the apparently greater length of the terms of imprisonment referred to above. There were 3 deaths during the year as against 2 in the previous year.

9. Proceeding to a consideration of the financial results of the administration for 1894, and taking the charges first, Government notice that gross expenditure on account of all classes of criminal prisoners for 1894 compares as shown below with the preceding year :—

	1893.	1894.
	No.	No.
Average number of prisoners...	8,135	8,022
	Rs. a. p.	Rs. a. p.
Inspection and general superintendence	26,191 0 0	26,590 0 0
Cost per prisoner	**3 3 6**	**3 5 0**
Rations	2,40,799 0 0	2,25,130 0 0
Cost per prisoner	**29 9 7**	**28 1 0**
Establishment	1,92,960 0 0	2,02,580 0 0
Cost per prisoner	**23 11 6**	**25 4 1**
Police guards	32,221 0 0	32,288 0 0
Cost per prisoner	**3 15 5**	**4 0 5**
Hospital charges	14,121 0 0	15,508 0 0
Cost per prisoner	**1 11 9**	**1 14 11**
Clothing	24,989 0 0	20,892 0 0
Cost per prisoner	**3 1 2**	**2 9 8**
Contingencies	55,311 0 0	57,088 0 0
Cost per prisoner	**6 12 9**	**7 1 10**
Gross cost of maintenance	5,86,592 0 0	5,80,085 0 0
Cost per prisoner	**72 1 8**	**72 4 11**

The decrease in the gross cost of maintenance is due chiefly to the lower daily average strength of criminal prisoners confined. The following statement gives the net cost exclusive of inspection charges :—

	Total Cost of Maintenance.	Cost per Head.	Cash Earnings.	Earnings per Head.	Net Cost.	Net Cost per Head.
	Rs.	Rs. a.	Rs.	Rs. a.	Rs.	Rs. a.
Central Prisons and Prisons.	5,03,484	70 6	90,747	12 11	4,12,737	57 12
Sub-Jails	22,908	66 6	2,040	5 15	20,868	60 7
Lock-ups...	27,103	51 5	...	...	27,103	51 5
Total ...	5,53,495	68 15	92,787	11 9	4,60,708	57 7
For 1893...	5,60,401	68 14	1,34,398	16 8	4,26,003	52 6
Increase	...	0 1	...	...	34,745	5 1
Decrease	6,906	...	41,611	4 15	...	...

From the above two tables it appears that, whereas the gross cost of maintenance per head of criminal prisoners remained practically the same, the net cost showed a most disappointing increase. This is explained as due to the fall in demand for prison-made articles and the failure to find suitable work for the Deccan and Sind Gangs, the reasons for which are discussed in the next paragraph. With regard to the variations disclosed in the first table, the decrease under the heading "Rations" is of especial interest in connection with the experiments in grain storage. A perusal of Statement X attached to the report shows a remarkable lowness of rate for the Dhárwár prison, where the experiment is being carried out, and the Governor in Council will await with interest the results of the further experiment to be carried out in the Thána prison. The increase under Hospital charges is reported to have been contributed to by the increased cost of Europe medicines and the tendency to prescribe more expensive remedies. In view, however, of the fact that the average daily sick list has remained the same, the Governor in Council would have been glad to have had a somewhat fuller explanation. The increase under the heading "Contingencies" appears to be mainly due to the enhanced Halálkhor taxes levied from the Presidency prisons. The increase in allowances to Hospital Assistants under the same heading is due to the revised scales, but it is satisfactory to note that it is accompanied by the much needed control over them afforded to the Inspector-General. The remaining variations have been fully explained in the report.

10. Statements XI and XII attached to the report show the manner in which the convicts were employed and the amount of their earnings. The following abstract of the former is taken from paragraph 43 of the report :—

	Average number under sentence to labour.	Sick and convalescent.	Average number not employed for other reasons.	On unremunerative labour.	Prison officers.	Prison servants.	Gardening.	Grinding grain and preparing articles for prison use.	On additions, alterations and repairs to prison buildings.	Manufactures.	Extramural labour.
Central and District Prisons.											
1893 ... Number	6,889	544	...	295	326	654	404	945	380	2,165	1,176
1893 ... Percentage	100	7·9	...	4·3	4·7	9·5	5·9	13·7	5·5	31·4	17·1
1894 ... Number	6,932	436	110	363	461	648	403	951	695	2,202	663
1894 ... Percentage	100	6·3	1·6	5·2	6·7	9·3	5·9	13·7	10·0	31·8	9·5
Subordinate Jails.											
1893 ... Number	198	13	...	30	...	35	61	16	1	31	11
1893 ... Percentage	100	6·6	...	15·1	...	17·7	30·8	8·1	0·5	15·7	5·5
1894 ... Number	211	10	1	26	...	37	67	18	3	35	14
1894 ... Percentage	100	4·8	0·5	12·3	...	17·5	31·8	8·5	1·4	16·6	6·6

The decrease in the number of "sick and convalescent" is apparent only, as under this head those unemployed for other reasons were included last year. The foot-note required to Statement XI in this connection by Government Resolution, Judicial Department, No. 4965, dated 17th July 1894, should have been inserted. The increase in the number engaged on additions, &c., to prison buildings is due to the work in the new Central Prisons of Hyderabad and Ahmedabad, and must be taken into consideration in considering the decrease in those employed extramurally. Even so there is a decrease of 200 to which no doubt is partly due the increase in those employed unremuneratively. The decrease in the sum earned extramurally, as thus considered, amounts to no less than Rs. 34,000, in round figures, and is a most unfortunate feature in the year's report. It is hoped that the work found in Khándesh and on the Jamrao Canal for the Deccan and Sind gangs respectively, which are responsible for this decrease, will be instrumental in showing a marked improvement for the current year. The decrease in factory profits is also serious. It is explained that this is counterbalanced by the amount of stock on hand at the end of the year, but, financially, this does not afford much consolation. Last year's report similarly showed a slight falling off and if the report for the current year discloses a continued decline under this head the Governor in Council will be glad to have the remarks of the Inspector-General on the question of how far it has been possible without detriment to local trades to adapt the prices and kinds of jail manufactures to the demands of the market.

11. The tables in paragraphs 54 and 57 of the report are repeated below, as they show in a concise form the returns of sickness and mortality among all convicts and under-trial prisoners. The statistics for civil prisoners, which have been included this year in Statement XIV, are excluded from these tables:—

	1893.			1894.		
	Males.	Females.	Total.	Males.	Females.	Total.
Total population	28,214	982	29,196	24,110	916	25,026
Daily average strength	7,015	222	7,237	6,948	201	7,149
Number admitted into Hospital...	5,823	144	5,967	5,874	121	5,995
Daily average sick	213·7	7·0	221·3	213·9	7·1	221·0
Number of deaths	183	4	187	236	2	238
Ratio per mille of deaths to total population...	6·5	4·1	6·4	9·8	2·2	9·5
Do. do. to strength...	26·1	18·0	25·8	34·0	9·9	33·3
Do. do. to admission into Hospital...	31·4	27·8	31·3	40·2	16·5	39·7

	1893.						1894.					
	Jails.			Lock-ups.			Jails.			Lock-ups.		
	Males.	Females	Total.	Males.	Females	Total.	Males.	Females	Total.	Males.	Females	Total.
Total population	5,744	305	6,049	40,240	1,958	42,198	5,697	283	5,980	40,370	2,203	42,573
Daily average strength	323	16	339	536	23	559	330	15	345	506	22	528

The two tables give the following comparative results:—

	1893.	1894.
Average daily strength	8,135	8,022
Number of admissions to Hospital ...	6,569	6,578
Daily average sick...	233·42	234·9
Deaths	207	258

Digitized with financial assistance from the Government of Maharashtra on 11 July, 2017

It appears therefore that the health of the prisoners has not been quite so good as in 1893. The two prisons that were the most unhealthy are those at Kaira and Shikárpur. The former has, however, disappeared with the opening of the Ahmedabad Central Prison from the beginning of the current year, and as regards the latter Government will await the proposals of the Inspector-General for its removal to Sukkur. Over-crowding was again unavoidable in almost all prisons and jails, and is said to have been due in great part to the low number at which the Deccan Gang had to be kept. The Governor in Council has read with interest the remarks of the Inspector-General in paragraph 61 of his report in connection with the Ahmedabad City Prison. Statements XV to XVII call for no special comment. With regard to the table in paragraph 67 of the report it is not understood how in the case of Kárwár and Hyderabad on two occasions in each prison the number of official visitors attending a quarterly meeting was higher than the actual number of official members shown in column 3 as having been appointed.

12. The year under review has been an important one, and although the financial results have been disappointing, the Governor in Council is disposed to regard it otherwise as decidedly a year of progress. The introduction of the new Prisons Act from the 1st July 1894 set on foot many changes, and together with the preparations in connection with the opening of the two Central Prisons at Hyderabad and Ahmedabad, and the alterations in the warder, jailor and other establishments, has thrown an amount of additional labour upon the department generally and on Mr. Filgate in particular, for their care and attention in disposing of which the cordial acknowledgments of Government are due.

13. Copies of the Report and of this Resolution should be forwarded to the Government of India and the Secretary of State, and a copy should be placed on the Editors' Table.
